I am attaching correspondence from Messrs. Goddard and Lindon covering the
• aforementioned legislation, a copy of which was sent to you earlier.

As you will note from their comments, both Tim and Colin have significant problems
with the proposed legislation. I share their views in this regard.

We are all in agreement that PTI should respond with its own position paper, and
separately, it would be useful to us if you could respond directly to the issue raised by
Tim in his note.

Thank you and best regards,

HAROLD DYRVIK
